

**Your Trusted Partner in
Engineering Solutions**

SHUBHANKARI
Engineering Solutions LLP

Conveyor | Bucket Elevator | Dust Collector | Feeding and Weighing Systems | Silos

ABOUT US

Shubhankari Engineering Solutions LLP is an innovative solutions provider in various industrial segment like RMC plants, Cement, Fly ash, Micro Silica, GGBFS handling, Aggregate & Sand handling, various automotive components handling. We closely work with engineering, constructions, Ready mix Concrete, Automotive Component manufacturer, Automation & robotics solution provider to enhance their complex operational challenge by design, manufacture & execute various concepts & equipment, Leveraging profound engineering knowledge, project management expertise, we enable innovation at our clients process to maximize their return on investment (ROI) in every project or venture. We focus on -

- ✓ Process optimization & automation.
- ✓ Lower expenditure
- ✓ Improved efficiency
- ✓ Faster ROI
- ✓ Longevity

Our growing clientele includes prestigious name in engineering, construction & infrastructure, Ready Mix Concrete, Automotive component Manufacturer, automation & robotics companies.

DUST COLLECTOR

VIBRATORY TYPE

Ground Mounted and Silo Top Mounted
No of Cartridges - 14 nos
Available in Mild Steel and Stainless Steel Body
Vibrator - 0.18 KW
For Ground Mounted - 3 HP blower

PULSE JET TYPE DUST COLLECTOR

Ground Mounted and Silo Top Mounted
Available in Cartridges or Bags
Available in 16 Bags / 25 Bags / 36 Bags
Available with Compressors, Blower and Programmable Timer Based Control Panel

OTHER CONVEYOR

BELT CONVEYOR

We design various types of belt conveyors for automotive industries, food processing industries automotive component manufacturing industries, Constructions & RMC industries.

SLAT CONVEYOR

- Slat conveyor are used in food processing & heavy automotive component manufacturing companies. Sometime it is used for automation purpose. This type of conveyor are high precision type conveyor so, massively used in robotics & automation industries.

CHAIN CONVEYOR

Chain conveyors are used in various type of application in wide segment of industries.

ROLLER CONVEYOR

We have designed & executed roller conveyor for automotive component manufacturing companies.

CONSTRUCTION EQUIPMENTS

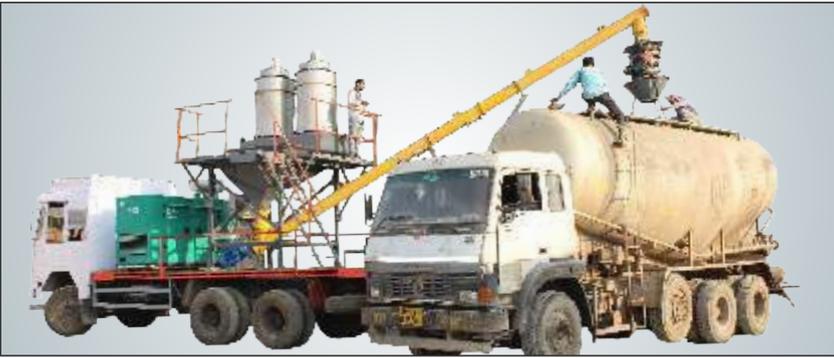

AGGREGATE FEEDING CONVEYORS

We have successfully designed, manufactured & executed various type of aggregate feeding conveyors for concrete batching plants across the country.

- a) Rotary chute type aggregate feeding belt conveyor
- b) Radial belt conveyor for inline bins

MOBILE CEMENT BAG CUTTING CUM BULKING SYSTEM

We have successfully designed, manufactured & executed bag cutting machine along with bulker feeding

SILOS

- ✓ We manufacture and supply silos.
- ✓ Cement silos - 100T, 150T & 200T.
- ✓ Flyash - 80T, 100T with bottom structure.
- ✓ GGBFS - 80T & 100T with bottom structure.
- ✓ Micro silica / Alcofine - 25T, 40T with bottom structure.

CEMENT / FLYASH FEEDING SYSTEM

- ✓ We offer pneumatic bulker unloading system for cement /Flyash / GGBFS.
- ✓ The twin tube high-volume low pressure blower makes it Easy to unload the bulkers within an hour.
- ✓ Reduces the dependability on the availability of compressor mounted bulker.

CONSTRUCTION EQUIPMENTS

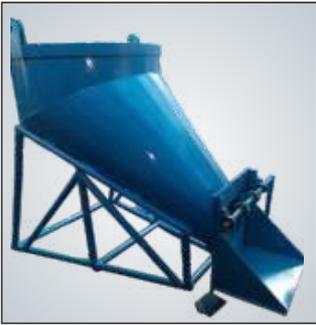

MICRO SILICA /ALCOFINE FEEDING SYSTEM

We design & manufacture various types of Micro Silica /Alcofine Feeding system as per customer requirement.

- 1) Direct gravity discharge to weigher system
- 2) Screw conveyor from Hopper, Material hoist system
- 3) Screw conveyor from silo, Bucket elevator system

CONCRETE BUCKET

We manufacture various types of concrete bucket with balance design & mechanically operated gates.

- a) Banana Type
- b) Centre Discharge Type

CONCRETE PIPELINE & ACCESSORIES

We manufacture concrete pipeline and all relevant accessories. We always keep stock for off-the-shelf delivery. We manufacturer standard 4.5 mm, 7.1 mm & 8 mm thickness pipes & bends. We use TIG welding for strength assurance. Colour as per your requirement.

Why Partnering With Shubhankari Engineering?

If you are able to point out a problem in your operations...we have the solutions!!!

- ✓ State of the art design facility for custom made design for various applications.
- ✓ Team of skilled and hands on experienced Technical Professionals for innovative solutions.
- ✓ 3D Modelling in software and simulation
Design Approval - Manufacturing - Execution
- ✓ In house fabrication and manufacturing facility.
- ✓ 100% quality and accuracy assurance.
- ✓ Separate team for after sales service.

SHUBHANKARI ENGINEERING SOLUTIONS LLP

Plot No-J88, Additional Murbad MIDC, Vil- Kudavali,
Dist. - Thane, Maharashtra- 421401
